25X1A	Approved For Release 2002/07/31 : CIA-RDP63-0	00313A000600040013-8
	Felo	CHAL - 053 Copy 3 of 4.
		23 January 1959
25X1A	MEMORANDUM FOR: Deputy Director (Plans) SUBJECT: Discussion with 14 January 1959 on Health and Morale at Detachment	
25X1A		
25X1A	l. In the course of a lengthy discussion with the following significant subjects were covered:	
25X1C		
·		
25X1C	b. are older, their families have grown, and they are no longer the "tigers" they were at the inception of the program. One or two have indicated that they would get out if they gracefully could. Reasons hinge upon the fact that initially it was believed that the program would last at most a year and a half. Three years have elapsed and improvement in intercept capability is assumed.	
	c. The pilots should be brought u we are taking, such as increased altitude system, etc.	
25X1A 25X1C	2. As a result of the above, and the favorable report from the recent intercept tests, I recommended, and you approved, that armed with the latest information and evaluation,	
20/10	Col. Beerli, after which a major sales prassembled pilots, the main purpose being	fully brief itch would be made to all
25X1C	up an aggressive spirit. Col. Beerli would then talk privately to the Since attitude and	
	spirit of combat crews are the most vital I believe this action will be timely and eff	keys to successful missions, fective.

25X1/	3. I believe that Col. Beerli's leadership continued to be outstanding but feel that we can be of major assistance to him through		
	visit. As you know, pilots talk to flight surgeons		
	and do not talk to commanders with regard to mental problems. From what I gather, Col. Beerli is still living on nervous energy and badly needs rest and relaxation. Unfortunately I see no way for him to get same until much later.		
25X1A	4. In selecting personnel for assignment to		
	believes single men are much to be preferred; further that we have not		
25X1A	been doing a good job in checking medical histories of contract and military personnel selected for assignment Medical		
	facilities and treatment are marginal and therefore each individual must be physically and psychologically sound prior to selection for		
25X1A	duty I have taken steps with		
25X1A	to ensure heavier emphasis on this aspect.		

WILLIAM BURKE Colonel, USAF DD-DPD-DD/P
